-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 31 January 2005.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

1. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

### ***Specification***

2. The abstract of the disclosure is objected to because it exceeds 150 words in length. Correction is required. See MPEP § 608.01(b).
3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
4. The disclosure is objected to under 37 CFR 1.71, as being so incomprehensible as to preclude a reasonable search of the prior art by the examiner. For example, the following items are not understood:
  - a. It is unclear what the applicant meant with "a projector located in the inner polyhedron of two or more polyhedral bodies inscribed each one in the bigger one that contains it, concentric or not".

Art Unit: 2851

b. It is unclear what the applicant meant with "the geometrical centre of those polyhedrons the system is provided with a projector or a bunch of images projectors which by means of a set of lens or mirror reflects the same image on every face of the polyhedrons where it is contained".

Due to the previous objections as set forth above, the Applicant's cooperation is requested in reviewing and correcting the disclosure to place the specification in better form.

Applicant is required to submit an amendment, which clarifies the disclosure so that the examiner may make a proper comparison of the invention with the prior art.

Applicant should be careful not to introduce any new matter into the disclosure (i.e., matter which is not supported by the disclosure as originally filed).

### ***Claim Objections***

5. Claims 1-4 are objected to because of the following informalities:

a. Regarding claim 1, lines 6 and 10-11, the use of an alternate language such as "or" throughout the claim renders the claim to be vague and indefinite. The limitation must be clear.

b. Regarding claims 2 and 3, lines 2-3 (respectively), the phrase "essentially characterized by being" should be change to a proper transitional phrase such as - - consisting essentially of - -.

c. Regarding claim 4, line 2, the phrase "characterized by consisting of" should be changed to a proper transitional phrase such as - - consisting of - -.

d. Regarding claim 1, line 11, the phrase "can be or not associated" is an optical language and not positively reciting the claim limitation. The limitation must be clear.

Due to the previous claim objections as set forth above, the Applicant's cooperation is requested in reviewing and correcting the claims to place said claims in better form. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-4 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claims are narrative in form and replete with indefinite and functional or operational language. The structure, which goes to make up the device, must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claims must be in one sentence form only.

8. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what the applicant is claiming for the examiner to determine meets and bounds of the scope of the claims and therefore the examiner is unable to perform a reasonable search. For example, regarding claim 1, the

Art Unit: 2851

use of an alternate language such as "or" throughout the claim renders the claim to be vague and indefinite; furthermore, the phrase "can be or not associated" is an optical language and not positively reciting the claim limitation, which renders the claim to be indefinite. The examiner respectfully request applicant to provide an amendment that particularly point out and distinctly claim the subject matter in the next communication.

### ***Conclusion***

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Magda Cruz whose telephone number is (571) 272-2114. The examiner can normally be reached on Monday through Thursday 8:00-5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diane Lee can be reached on (571) 272-2399. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
